

9th Baltic Sea Science Congress 2013
New Horizons for Baltic Sea Science
26-30 August, 2013 Klaipeda, Lithuania

SECOND ANNOUNCEMENT

Introduction

The Baltic Sea Science Congress is an international forum for researchers of the Baltic Sea countries and is uniting the three major scientific communities: the Conference of Baltic Oceanographers (CBO), Baltic Marine Biologists (BMB), and Baltic Sea Geologists (BSG). The objective of the congress is to bring together marine scientists and experts as well as young researchers. The **headline** of the coming Congress will be “New Horizons for Baltic Sea Science“.

9th Congress will be organized by Klaipėda University (KU) and Coastal Research & Planning Institute (CORPI) in cooperation with BONUS and scientific societies, with large contribution of CBO, BMB and BSG.

Time and Venue

BSSC will be held on 26-30 August, 2013 in the city Klaipeda, Lithuania in Conference complex Aula Magna of Klaipeda University.

Address: Mall and University Auditorium Center “Studlendas”
Klaipeda University
H. Manto 84, LT 92294
Klaipeda, Lithuania

Call for Abstracts is open until February 15, 2013.

Sessions and workshops are available on Conference website <http://corpi.ku.lt/bssc2013/>. There will be provided all the necessary information including the on-line registration and abstract submission.

2 or 3 days **Pre-Congress geological excursion** along the Latvian and Lithuanian Baltic Sea coastal zone is available.
